DINING BY DESIGN 2011

*it's a wrap*

10TH ANNIVERSARY

This year marks the 10th anniversary of the Arts Council of Princeton's annual fall fundraiser, **Dining by Design!** This unique cultural and culinary event attracts over 400 guests in support of community arts education programs for at-risk youth.

National studies have proven that arts education improves literacy and academic performance in K-12 students. For over 44 years the Arts Council has continually provided free professional arts instruction to children and teens in the greater Princeton/Trenton area.

Please consider supporting the ACP as a Dining by Design sponsor. For your generosity, your name will appear in event and ACP online and print publications. Event tickets include a cocktail reception at Johnson & Johnson Consumer Companies in Skillman from 5:30-7:30 pm, and dinner with an artistic presentation at a private home at 8 pm.

This year's theme, *Dining by Design: It's a Wrap* draws its inspiration from the monumental installation projects of Christo & Jeanne-Claude. Artwork inspired by Christo & Jeanne-Claude and other contemporary conceptual artists created by students from the Arts Council's ArtReach and Arts Exchange programs will be exhibited at the event.
